

# Heute schon bei EWE

## #dasMorgenmachen

**Because digital energy trading can't wait any longer:** At EWE TRADING GmbH, we handle the energy trading activities of the EWE Group and act as the Group's interface to the wholesale markets for power, natural gas, emission rights and renewable energy. Join our mission and our great team to grow with us.

## Working Student (f/d/m) Analysis

The Position is based in Bremen

### As part of our team:

- You'll develop and maintain Python code for our data processing and our own models
- You'll work with databases and interfaces (REST, XML, CSV) for analysis and visualization (Excel documents, pivot tables, VBA)
- You'll maintain and improve model code, e.g., by participating in development and test automation (Pytest)
- Based on your work, you'll provide your own initial analysis, depending on the task, and discuss plausibility and implications

### What you provide:

- You're currently studying quantitative discipline, e.g., mathematics, physics, computer/data science, (industrial) engineering or a related field
- You have solid Python skills and can solve tasks independently and efficiently
- Initial experience in data analysis, working with databases and REST APIs, as well as in test automation using Python
- You are proficient in standard Office applications
- You work in a conscientious, responsible, and structured manner, with a strong analytical mindset.
- You are interested in both IT and energy trading related topics
- You are motivated to familiarize yourself with new topics and actively contribute your ideas
- You have good knowledge of English and German

### What we offer:

- An **interesting and varied working student job** in a dynamic energy trading environment
- **Participation in important energy trading operational processes**, with the opportunity to gain insight into other areas of work

- The opportunity to **actively contribute and shape trading processes and tasks** for students and final thesis
- Working hours from **15 up to 20 hours per week possible**
- Working with a **beautiful view over Bremen**
- **"Diversity"** – at EWE, this term stands for a non-judgmental working environment and recognizing and valuing individual differences as strengths
- For us, **climate protection** is not merely a trend, but a responsibility. Be a part of it: Climate neutral by 2035!

### Contribute to our success story!

Please submit your application documents along with your desired salary, your earliest possible starting date, and the **EWE reference number** through the link on our home page:

### We're looking forward to meeting you!

We are committed to the integration of people with disabilities and therefore encourage them to apply. This position is open to people of all genders.

We emphasise diversity and reject discrimination. What's important to us is that you fit in as a person. **You're all that counts!**
